

## Breakout/Keynote - Summary & Evaluations

Breakout Title: e-portfolios made easy	Rating: ☺ ☹ ☹
Presenter:	
Curriculum Area <b>ICT</b>	Juniors Middles <b>Seniors</b>
<u>Keypoints:</u> Creating e-portfolios using spike.com	<u>Web Links</u> <a href="http://www.spike.com">www.spike.com</a>
<u>Summary</u> <p>This was a commercial product used in creating e-portfolios. It is designed to be used by students rather than teachers. It definitely focuses on older more computer able student s able to create their own blogs and add individual research information. Ok for older students but a bit tricky to use for juniors as it requires a high degree of ICT competence and would be used to create an publish on line.</p>
